- ...and other technology equipment for the classroom and presentations (excluding computers, printers or software).

DigitalEdge is a highly successful purchasing program that includes some of the top instructional technology products at the best prices in the country. The program is based out of **Educational Service District 112** and partners with education institutions and public agencies throughout the state to get you the best prices for your classrooms.

"Not having to go out and research products and prices saves me a ton of time to do the other things that need to be done. This bid program also reduces my choices so the decision is easier. I don't want thousands of options. I want products that will meet our needs. And the DigitalEdge gives me all that in a nice simple package!"

—WESLEY FELTS
TECHNOLOGY DIRECTOR
ISSAQUAH SCHOOL DISTRICT

How it works

- Unlike other bid programs, there are no membership, subscription or administrative fees added to the prices.
- The bid has already been done for you! Rather than putting your own items out to bid, we save you time, effort and money.
- You purchase the items directly from the vendors.
- Unlike other contracts, our pricing includes shipping and handling.
- More information, as well as current price lists, can be found on the **DigitalEdge** web site at <http://digitaledge.esd112.org>.
